MEDICARE PATIENT NOTIFICATION

To Our Medicare Patients:

- **PRESCRIPTION:** Medicare requires that you have a prescription from a Physician to receive physical therapy services.
- **PLAN OF CARE:** Your therapist will develop a “Plan of Care” that will be approved by your Physician. This plan is reviewed and re-certified by your Physician every thirty days thereafter.
- **THERAPY “Threshold’s”:** The U.S. Federal Government has placed a “threshold” on your physical therapy benefits. The maximum that Medicare will pay for physical therapy is \$2,330.00 and medical review (MR) “threshold” of \$3000 for calendar year 2024. **Please let us know if you have previously received physical therapy or speech therapy elsewhere this year.**
- **SPECIAL EXEMPTIONS:** In some circumstances, your diagnosis will allow treatment beyond these “threshold’s,” when deemed medically necessary. If you wish for your treatments to exceed the “threshold,” you are responsible for any amount that is deemed not medically necessary by Medicare or any secondary insurance coverage you might have. Visits beyond the MR “threshold” will be charged to you at our usual and customary visit charge.
- **YOUR COSTS:** Unless you have secondary/supplemental insurance that covers your cost, you are responsible for an annual deductible of \$240.00 and the 20% co-insurance amount.
- **ADVANCED BENEFICIARY NOTICE OF NONCOVERAGE:** This form can be obtained by our front office if you ever need/choose to go beyond your MR “threshold” for physical therapy services.

Please feel free to ask us if you have any questions or concerns.

 Print Name

I have read and understand the above statements regarding my Medicare physical therapy benefits. I am responsible for all treatment charges beyond the Medicare “threshold,” whether or not they are covered by insurance, unless prior arrangements have been made with Costa Mesa Physical Therapy.
